Denis Matakov

Python Developer at Blackbox Opensource Project
Tver

Summary

I am looking for position of Python Backend Developer. I'm python developer with experience in Django and REST Framework, GitHub and GitHub actions CI, Docker and Docker-Compose. I understand OOP, CSS/HTML/JavaScript, Django Template Engine, Bootstrap and Bulma. I'd like to join strong team and develop my skills accordingly. Currently enrolled in Python Middle Developer courses and participating in opensource repositories.
